**EU INTERNET FORUM
TECHNICAL MEETING ON DRUG SALES ONLINE:
IMPLEMENTATION OF THE KNOWLEDGE PACKAGE AND NEXT
STEPS**

TUESDAY, 23 SEPTEMBER 2024, 09.30 – 12:00 CET

ONLINE

This meeting is a follow-up to the Knowledge Package on Countering Drug Sales Online, which was shared with the members of the EU Internet Forum (EUIF) on 8 February 2024 to support social media companies in better moderating drug trafficking contents on their platforms. This meeting aims to take stock of the evolution of the situation related to drug sales online and discuss the implementation of the Knowledge Package by the EUIF member companies. It further aims to identify the gaps and way forward concerning the Knowledge Package, including which updates are needed. Participants are invited to propose other areas where the work of the EUIF could contribute to addressing illicit drug-related activities online, for instance prevention activities. Moreover, participants are invited to propose actions they would like to develop within the EUIF work strand related to drugs, together with other EUIF members.
